Learning Outcomes

Upon completion of this course students will be able to

- interpret and apply the appropriate accounting treatment to the various topics covered in this course, in accordance with international financial reporting standards and Canadian generally accepted accounting principles (collectively referred to as GAAP). See course objectives for below for topics.
- prepare a statement of cash flows and the equity section of the statement of financial position for proprietorships, partnerships, and corporations in accordance with GAAP.
- demonstrate systematic procedures to determine relevant amounts and appropriate financial statement presentation for all course topics in accordance with GAAP.
- define the many accounting-specific terms associated with the course topics as used in the accounting profession today.
- journalize transactions relating to the course topics and describe the resulting financial statement impacts of those transactions in accordance with GAAP.
- describe alternative accounting methods associated with several of the course topics focusing on the differences among them and the effect on the financial statements of selecting one method over another in accordance with GAAP.
